

Mission Peak UU Vaccination Safety Policy and Procedures (Approved 5/9/2019)

Vaccination Safety Policy

To protect children and caregivers in the nursery Mission Peak Unitarian Universalist Congregation requires children using our Nursery (Room 5 of the Ockerman Building) to be fully vaccinated according to the schedule at ShotsForSchool.org. This policy is based on the honor system and proof of vaccination will not be required.

California Health and Safety Code require children in California to receive certain immunizations in order to attend schools and child care centers. See ShotsForSchool.org for details. Children may be exempt from immunization requirements with a written statement from a licensed physician.

To protect children and teachers in our religious education program MPUUC requires children to be fully vaccinated unless they have the required written statement from a licensed physician. In that case you must note it on our RE class registration form so that we can inform teachers and children who have compromised immune systems and might be at risk that there is a student who is not vaccinated. Please note, in times of emergency or epidemic your child(ren) may be asked to not attend Sunday School or youth activities. This policy is based on the honor system and proof of vaccination will not be required.

New part of children's RE registration form:

My child(ren) is/are vaccinated and current according the state of California requirements listed on ShotsForSchool.org. (An answer of no will not stop registration of your child(ren) if you read and agree to follow the MPUUC vaccination policy)

Yes

No (I have read and will follow the MPUUC vaccination policy)

New checkbox for nursery sign in sheet:

Have new checkbox on nursery sign in sheet with "vaccines up to date". Have vaccine policy in nursery binder too.
